Who We Are

MAS is a team of some 100 experienced, well-qualified managers and professionals who can help you get the results you need. We have helped close to 600 nonprofits, large and small, since our start in 1993.

We know the problems

You have too much to do in too little time without enough resources. Workloads and demands for accountability are increasing. MAS has had years of experience helping others in similar situations.

We have the skills

MAS will only take on assignments where we believe we can help. We are careful to match your needs with the experience of an appropriate MAS volunteer consultant.

We charge no fees

Because we are volunteers, we do not charge fees for our services. However, we ask that our clients cover incidental out-of-pocket expenses of the volunteer. We do ask of organizations that are financially able to do so and that are satisfied with our services, that they consider giving MAS a donation.

How We Can Help

During these times of increasing demands and shrinking resources you are concerned about the future of your organization and its ability to provide your community with its valuable services. You may have been looking for help in dealing with the pressures of running a successful nonprofit.

Perhaps your concerns have been about:

- diminished funding
- funders' doubts about the importance of your mission
- the clarity and focus of your mission
- your board's role in governance
- ensuring your funds are spent the way they should be
- getting your message out to the community.
- getting the most out of your computer facilities.

We have helped close to 600 nonprofits in the Toronto area.

We can help you too.
